LOCAL GOVERNMENT UNIT INTEGRATED FINANCIAL TOOLS (LIFT) OVERVIEW

The LIFT is an IT-based solution that provides our LGUs with a simple yet comprehensive tool to help local government plan, budget, improve revenue collection and budget execution, as well as audit.

LIFT shall serve as a tool to harmonize and complement the various performance management systems currently being implemented by the LGU oversight agencies (DBM, DILG and DOF-BLGF).

- **DBM and DOF — BLGF**

eSRE system was enhanced to version 3 to incorporate new modules (Expenditure Tagging, Expenditure Forecasting, SIPB, LGU FSS), introduce data encoding improvements, modify selected existing modules.

- **DILG**

Linked eSRE' s Local Government Financial Performance Monitoring System (LGFPMS) indicators to DILG' s Local Government Performance Management System (LGPMS)

The LGU System allows the Treasurers, Budget Officers and Assessors to encode data needed in order to generate the SRE and QRRPA reports.

The Central System allows the Treasurers, Budget Officers and Assessors to submit the encoded data to be reviewed and processed by regional and central users.

It also runs various performance assessment
(Performance Standards, Fiscal Sustainability Scorecard, LGFPMS)
and forecasting procedures
(Annual Performance Targets and Medium-Term Forecasts).
Other additional modules are for Debt Management and Data Analytics.

THE 10 BUREAUCRATS YOU MEET WHEN THERE IS NO FOI

10 THE SYMPATHIZER

I-FOLLOW UP KO PO
ULIT YUNG NI-REQUEST
NAMING DATA, MAY
BALITA NA PO BA?

ANG TAGAL N'YO
NANG NIRE-REQUEST
'YAN DI BA?
ANO NANG
NANGYARI?

But there have been patches of blue in an overcast sky.

In a span of almost a year, out of the approximately 40 national and local government agencies that the ABS-CBN Investigative and Research Group dealt with, seven have stood out in upholding the people's right to know, the DPWH, DOTC, Office of the Civil Defense-ARMM, PPPC, BSP, PSA and **DOF-BLGF**.

These agencies did not only provide updated and detailed data promptly, but these were also in digital format that could easily be analyzed. Best of all, they did not impose any fees for providing the service.

Unfortunately, these agencies remain the minority. In 8 out of every 10 requests for government data and information, the supposedly straight forward exercise has turned out to be a test of patience and perseverance.

Now that we have an EO on FOI, will we see significant improvement in government's disclosure of information to citizens?

THANK

you
